A Digital Bulletin Board Impresses Everyone

Getting Started with Digital Communication is so Easy with a Digital Bulletin Board.

The digital bulletin board from friendlyway replaces traditional pin boards and inconvenient paperwork. It opens up new perspectives on communication and collaboration for employees and visitors. With friendlyway existing information, materials, data and websites can easily be integrated and new content and applications can be added step by step.

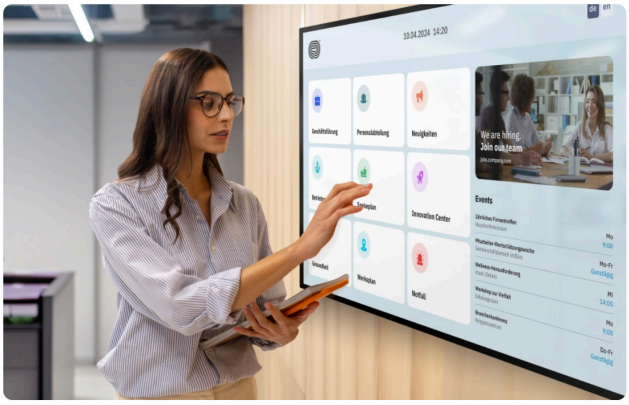

Provide current information with a classic display.

The simplest version of the digital bulletin board is the classic display screen, which presents multimedia data live at the right time and in the right place at the touch of a button. The only hardware required is a computer and at least one screen.

Benefits

- Quickly ready for use
- Central control of multimedia content
- Easy implementation

Or offer customized information and services with an interactive display.

The interactive version of the digital bulletin board opens up a a multitude of new possibilities. It not only disseminates information, but also makes helpful content accessible via touchscreen. Self-services for employees, visitors and customers are also possible.

Benefits

- Existing documents can be used more easily
- Information can be deepened by touch
- Allows use of websites and apps
- Enables individual rights and protected content
