Digital Gate Management

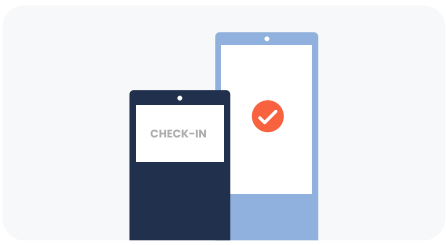

From Gate Congestion to Perfectly Coordinated Arrivals

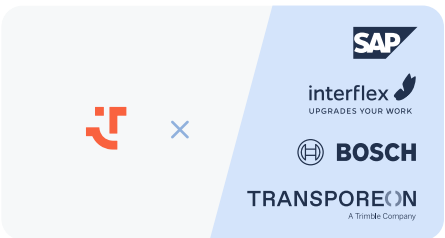

Manage Contractors and Site Logistics Seamlessly in One System

✓ Smart software

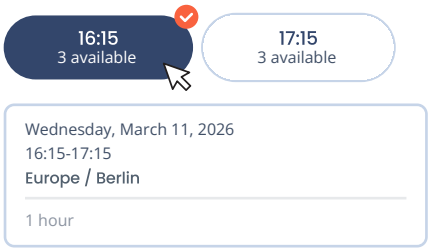

✓ Robust kiosks

✓ Seamless integration

Real-Time Control of Your Yard

Efficient Automation Tailored to Your Needs

Smart time slot booking

Book delivery slots online by delivery type and collect the required information during booking.

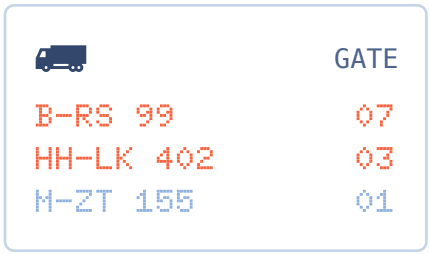

Fast driver check-in

Intuitive, paperless check-in at the kiosk, with support for multiple languages.

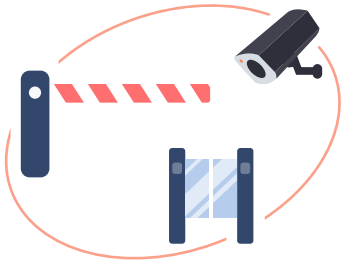

Legally compliant workflows

Confirm and document completion of safety briefings directly at the kiosk.

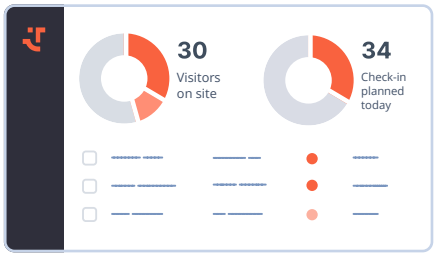

Truck call-up display

Assign drivers to the right loading dock immediately after check-in.

Automatic license plate recognition

Automate barrier and gate control with license plate recognition.

Real-time statistics

Track all arrivals and departures through your site gates for better planning.
